PROFESSIONAL SUMMARY

¡ Hello! I am a self-taught programmer currently in my seventh semester of Computer Engineering. I specialize in full-stack web development using technologies like Vue, Laravel, React, and Express. Besides my programming experience, I enjoy teaching C/C++, Java, and Python in my free time. I also have experience in user interface design using tools like Figma. I am excited to continue learning and growing as a developer and look forward to contributing my experience and skills to your team.

WORK EXPERIENCE

2023 – 2023

Company: Nelumbo.
Work format: full time, on-site.
Position: Software Engineer.
Responsibilities:

Created a responsive interface for an Android app, programmed in Kotlin using Jetpack with a UI library, and consumed an API that responded with a PDF displayed to the user without exiting the app flow.

Modified business logic, connected WordPress and email to a backend created in Laravel 7 deployed on AWS, with deployment done via PuTTY.

Developed a payment management application for iOS, programmed in Swift, where a UI was developed with SwiftUI that consumed a backend programmed in Express. Communication involved decrypting information using the SHA-224 algorithm, and integrating a Google map showing available stores in the area.

Developed a React interface with Material-UI, programmed in TypeScript.

Employment dates: June 15, 2023 – December 1, 2023

2022 – 2022

Company: Kunaisoft IT Services and IT Consulting
Work format: Full-time, on-site.
Position: Full Stack Vue-Laravel Developer
Responsibilities:

Developed functionalities in Vue-2, Vue2-Nuxt-Vuetify, Laravel-7 for controllers, routes, and models.

Developed a module using the Bunny Stream API, managed cPanel, and repository management in Bitbucket as the project was designed for continuous integration where the web page build was generated and deployed.

Employment dates: April 4, 2022 – November 1, 2022

2021 – 2021

Company: SEO Contenidos Digital Marketing Agency
Work format: Full-time, on-site.
Position: Web Developer
Responsibilities:

Part of a development team dedicated to creating plugins and themes for WordPress from scratch. Our mission was to apply best practices, following W3C standards and complying with WordPress.org regulations.
Participated in the validation of themes by WordPress.org.

Employment dates: June 8, 2021 – September 11, 2021
